

## Train a teacher

In rural Somalia and South Sudan, the quality of primary education is very poor and mostly non-existent. The reason? A severe shortage of qualified teachers. Fund the training of a teacher, an investment in the future of thousands.

## Travelling library for African schools

The trunk is made of steel to repel rats and termites. It's padlocked to protect its valuable contents: around 100 volumes of fiction, non-fiction and reference books. It's constantly on the move, trundled by donkey or bicycle cart to schools in Somalia, Sudan, South Sudan and Uganda (all former war zones, understandably short of books). The supply is refreshed every month. It's a story that needs to be told.
